The information in this Interim Report requires DDM to publish the information in accordance with the Securities Market Act and/or the Act on Trading in Financial Instruments. The information was submitted for publication 12 May 2016 at 8:00 a.m. CET.

Comment by the CEO

Following the largest transaction in DDM's history at the end of 2015, the first quarter of 2016 has involved significant work on the implementation of the Lombard transaction ahead of the closing, which took place at the end of April 2016 after receiving the approval from the Hungarian National Bank.

During the quarter we have also continued to deliver on our investment strategy in CEE with the acquisition of a new portfolio in the Czech Republic. This was the second portfolio we have acquired from the seller, confirming our transaction capabilities and DDM as a reputable buyer.

As a result of the recent acquisitions, net collections in the first quarter of 2016 increased by 134% compared to the first quarter of 2015, while amortization increased by 143%. Cash EBITDA (net collections less operating expenses) increased by 105% year-on-year.

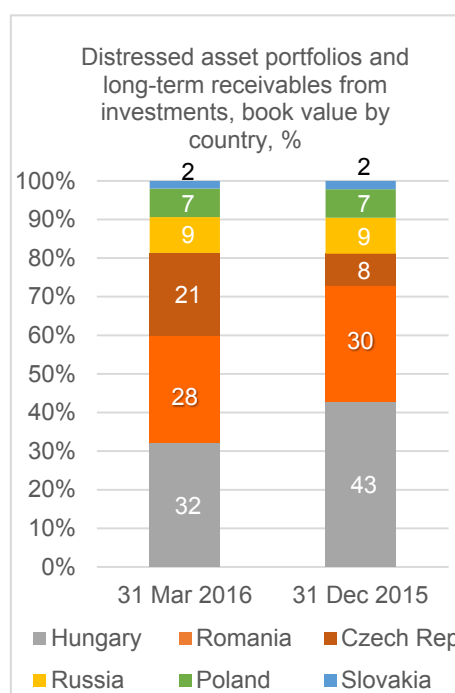

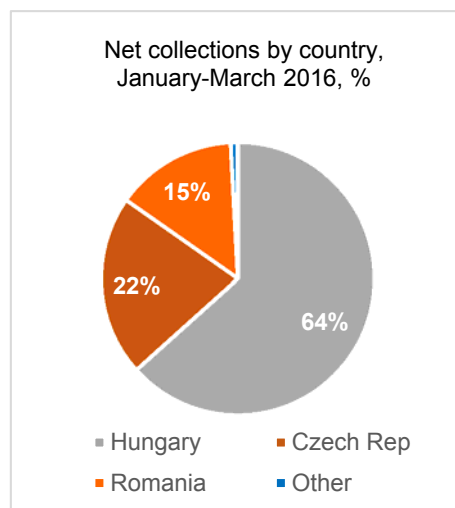

Cash flow from operating activities before working capital changes for the first quarter of 2016 was positive SEK 35.4M, compared to positive SEK 9.8M for the first quarter of 2015. Following the closing of the recent Hungarian transaction at the end of April, we received the first cash flows from collections in early May. This acquisition will contribute to stronger operational cash flows during 2016.

Market outlook

The pipeline of portfolios for sale across our region continues to increase significantly and outpace industry growth in Europe as a whole. DDM is seeing a sharp increase in the number of invites to bid for large portfolios and we are well placed to continue the rapid expansion in our investment activities. We remain positive on the outlook for DDM, as we are currently in advanced stages on several significant transactions.

Given the large amount of investment opportunities, funding is a key focus. We aim to raise additional funding, targeting a long-term and sustainable capital structure and costs. With the improved financial position due to the recent acquisitions, we feel confident that we will be able to continue to deliver according to our strategy.

** The majority of the Other items not affecting cash for the full year 2015 relates to the investment in Hungary, where DDM owns the economic benefit of net collections in 2015 from the acquired investment. This is not reflected in the cash flows for 2015 as the economic benefit is offset against the cash purchase price. The investment in Hungary in December 2015 was not paid at the balance sheet date.

Notes

Note 1. General information

DDM Treasury Sweden AB (publ) (“DDM Treasury” or “the Company”) and its subsidiaries (together “DDM Treasury Group” or “the Group”) provide liquidity to lenders on certain lending markets by acquiring distressed consumer debt, enabling the lenders to continue providing loans to companies and individuals. DDM Treasury Group then assists the consumers to restructure their overdue debt.

DDM Treasury was founded in 2013 as a wholly owned subsidiary of DDM Group AG, Baar, Switzerland. DDM Invest XX AG is wholly owned subsidiary of DDM Treasury. On 23 June 2015 DDM Invest I AG, DDM Invest II AG, DDM Invest III AG, DDM Invest IV AG and DDM Invest X AG, Baar, Switzerland were acquired by DDM Treasury Sweden AB. They are wholly owned subsidiaries, therefore this acquisition was not considered as a business combination according to IFRS 3, as the transaction was done during the ordinary course of business among entities which are under common control of DDM Holding AG.

DDM Treasury acts solely as the issuer of financial instruments and extends this funding intra-group, whereas DDM Group AG acts as the investment manager and makes all decisions regarding investments and allocation of resources.

The Parent Company, DDM Treasury Sweden AB (publ) is a limited liability company with registered offices in Stockholm, Sweden and its Swedish Corporate ID No. is 556910-3053. The address of the main office and postal address is S:t Eriksgatan 63, SE-112 34, Stockholm, Sweden.

All amounts are reported in million Swedish krona, SEK M, unless stated otherwise. Rounding differences might occur.

Note 2. Basis of preparation

This Interim Report has been prepared in compliance with IAS 34 Interim Financial Reporting and the Swedish Annual Accounts Act. The consolidated financial statements have been prepared in compliance with International Financial Reporting Standards (IFRS) as endorsed by the EU, the Swedish Annual Accounts Act and RFR 1 Supplementary Accounting Rules for Groups issued by RFR, the Swedish Financial Reporting Board. The Parent Company’s financial statements have been prepared in compliance with the Swedish Annual Accounts Act and RFR 2 Accounting for Legal Entities issued by RFR. The accounting policies that are most critical to the Group and Parent Company are stated in DDM Treasury’s Annual Report for 2015. Figures in tables and comments may be rounded.

Note 3. Revenue on invested assets by region

Revenue on invested assets is recognized in the income statement in the “Revenue on invested assets” line item, which is the net amount of the cash collections at the collected amount (net of direct collection costs), amortization of invested assets and revaluation of invested assets. As the collection procedure is outsourced, the net amount of cash collected is recorded within the line “Revenue on invested assets” in the income statement.

SEK M	1 Jan – 31 Mar 2016	1 Jan – 31 Mar 2015	Full Year 2015
Hungary	44.2	–	122.0
Czech Republic	14.9	–	18.9
Romania	10.0	14.7	57.1
Russia	0.3	1.5	9.4
Slovakia	0.2	–	0.8
Slovenia	0.0	13.1	18.6
Poland	(1.0)	–	1.8
Net collections	68.6	29.3	228.6
Amortization of invested assets	(49.1)	(20.2)	(57.8)
Interest income on invested assets before revaluation	19.5	9.1	170.8
Revaluation of invested assets	0.5	3.5	(41.4)
Revenue on invested assets	20.0	12.6	129.3

The chief operating decision maker of DDM reviews the financial outcome as a whole. Analysis is performed on a portfolio-by-portfolio basis but the chief operating decision maker reviews the outcome on the group as a whole. Each portfolio is not considered to be an identifiable segment and the Group reports segment on an entity basis, i.e. one operating segment.

The Group discloses information regarding revenue on invested assets based on its key geographic areas.

DDM acquires its portfolios from financial institutions at a discount. Such discount gives DDM room to negotiate realistic instalment plans with debtors. DDM targets portfolios with a market value of EUR 3–30 million.

Note 4. Distressed asset portfolios and other long-term receivables from investments

DDM Treasury Group invests in distressed asset portfolios, where the receivables are directly against the debtor, and in other long-term receivables from investments, where the receivables are against the local legal entities holding the portfolios of loans.

Other long-term receivables from investments

DDM Group AG owns 100% of the shares in the local legal entities holding the leasing portfolios. However, the economic substance of the investments are the underlying portfolios of loans, which the DDM Treasury Group owns together with a co-investor. As a result, the underlying assets which represent other long-term receivables from investments are recognized in the DDM Treasury Group financial statements. The receivables are initially recognized at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment.

The following investments are treated in this manner:

Entity	Domicile	31 March	31 December
		2016	2015
Lombard Pénzügyi és Lízing Zrt.	Hungary	100%	100%
Lombard Ingatlan Lízing Zrt.	Hungary	100%	100%
Lombard Bérlet Kft.	Hungary	100%	100%

The recognition of the acquisition of distressed asset portfolios and other long-term receivables from investments is based on the DDM Treasury Group's own forecast of future cash flows from acquired portfolios. Distressed asset portfolios and other long-term receivables from investments consist mainly of portfolios of non-performing consumer debts purchased at prices significantly below their principal value. Such assets are classified as non-current assets. Reporting follows the effective interest method, where the carrying value of each portfolio corresponds to the present value of all projected future cash flows discounted by an initial effective interest rate determined on the date the portfolio was acquired, based on the relation between cost and the projected future cash flows on the acquisition date. Changes in the carrying value of the portfolios are reported as amortization and revaluation for the period.

Distressed asset portfolios and other long-term receivables from investments are reported at amortized cost using the effective interest method. The initial effective interest rate is calculated for each portfolio / receivable based on its purchase price including transaction costs and estimated cash flows that, based on a probability assessment, are expected to be received from the debtors of the corresponding portfolio net of collection costs. Current cash flow projections are monitored over the course of the year and updated based on, among other things, achieved collection results and macroeconomic information. If the cash flow projections are revised, the carrying amount is adjusted to reflect actual and revised estimated cash flows. DDM Treasury Group recalculates the carrying amount by computing the present value of estimated future cash flows using the original effective interest rate. Both a reduction and an increase in the carrying amount is recorded in the income statement in the line "Revaluation of invested assets".

The DDM Treasury Group assesses at each reporting date whether there is objective evidence that a portfolio/receivable is impaired. A portfolio/receivable is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the portfolio/receivable that can be reliably estimated.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the reversal of the previously recognized impairment loss is recognized in the consolidated income statement.

If the Company sells a portfolio / receivable for a higher or lower amount than its carrying value, the resulting gain or loss on disposal is recognized in the consolidated income statement (within the line "Revaluation of invested assets").

The DDM Treasury Group invests in portfolios that are denominated in local currencies as well as portfolios denominated in EUR and USD. Therefore, fluctuations in the SEK exchange rate against these currencies affect net collections and operating profit / (loss) of the DDM Treasury Group.

Net collections are distributed by currency as follows:

SEK M	1 Jan – 31 Mar	1 Jan – 31 Mar	Full Year
	2016	2015	2015
HUF	44.2	–	122.0
CZK	14.9	–	18.9
RON	6.1	7.0	25.9
EUR	4.0	21.7	51.4
RUB	0.3	1.4	9.4
Other (MKD, USD, PLN, CHF)	(0.9)	(0.8)	1.0
Total	68.6	29.3	228.6

In terms of balance sheet positions denominated in foreign currencies that are then recalculated in SEK, the carrying values of distressed asset portfolios and other long-term receivables from investments owned by the DDM Treasury Group are distributed as follows:

SEK M	31 March 2016	31 December 2015
HUF	116.9	152.7
CZK	78.3	29.5
EUR	69.8	73.6
RON	38.5	41.5
RUB	33.9	33.4
CHF	14.0	13.8
PLN	12.6	12.3
Other (USD, MKD)	0.3	0.4
Total	364.3	357.2

Note 5. Borrowings

The Group has outstanding bonds. A bond loan was issued in June 2013, totaling SEK 300,000,000 at 13% interest, with maturity date of 26 June 2016 by DDM Treasury. On May 18, 2015, DDM Treasury initiated a written procedure to allow noteholders to vote on a restatement and certain amendments to the existing terms and conditions.

The Written Procedure was closed on 11 June 2015 and the Notes Exchange became effective on 23 June 2015. DDM Treasury made an additional cash payment of 4% on the effective date to the noteholders. In connection to the notes exchange DDM Invest I AG, DDM Invest II AG, DDM Invest III AG, DDM Invest IV AG and DDM Invest X AG were transferred to the direct ownership of DDM Treasury and pledged as security.

The amended terms and conditions included extension of the maturity to December 27, 2018, wider geographic scope in Europe, removal of cash-covenants and hedging restrictions, improved possibilities for future dividend payments and the introduction of an Inter-Creditor Agreement. The amended Terms and Conditions in their entirety are available on our website along with a summary of the amendments. Following the amendment and extension in June 2015 to the senior secured bonds issued by DDM Treasury, the Swiss Federal Tax Administration ruled that Swiss withholding tax of 35% is applicable. Holders of the bonds are entitled to a refund from the Swiss Federal Tax Administration, subject to them fulfilling the conditions for refund. There is no additional interest or withholding tax charge impacting the Company.

A second bond loan was issued in September 2013, totaling SEK 31,000,000 at 18% interest rate with maturity date 30 September 2016 by DDM Treasury. The shares of DDM Invest XX AG are pledged under the shareholder's agreement. The bond loans are secured by these shares.

During the fourth quarter of 2014 DDM Group AG repurchased SEK 6.0M of the junior bond loan that was issued in September 2013, at 18% interest, on the open market.

The recent Hungarian transaction closed at the end of April 2016, with the first cash flows from collections received in early May.

Definitions

DDM

DDM Group AG and its subsidiaries, including DDM Treasury Sweden AB (publ) and its subsidiaries.

Amortization of invested assets

The carrying value of distressed asset portfolios and other long-term receivables from investments are amortized over time according to the effective interest rate method.

Cash EBITDA

Net collections less operating expenses.

EBITDA

Earnings before interest, taxes, depreciation of fixed assets and amortization of intangible assets as well as amortisation and revaluation of invested assets.

Estimated Remaining Collections / ERC

Estimated Remaining Collections refers to the sum of all future projected cash collections before collection costs from acquired portfolios. ERC is not a balance sheet item, however it is provided for informational purposes.

Equity

Shareholders' equity at the end of the period.

Net collections

Gross collections in respect of the debt portfolios held by DDM minus commission to collection agencies.

Net debt

Long-term and short-term loans including subordinated debt, liabilities to credit institutions (bank overdrafts) less cash and cash equivalents.

Non-recurring items

One-time costs not affecting the Company's run rate cost level.

Operating expenses

Personnel, administration, consulting, legal, audit and similar expenses & repairs and maintenance expenses.

Revaluation of invested assets

Distressed asset portfolios and other long-term receivables from investments are reviewed at each reporting date and revalued if there is objective evidence that one or more events have taken place that will have a positive or negative impact on future cash flows.

About DDM

DDM Treasury Sweden AB (NGM: DDM1) is a subsidiary of **DDM Holding AG** (First North: DDM) a key acquirer and manager of distressed assets, offering the prospect of attractive returns from the expanding Eastern European market for distressed assets and non-performing loans. Since 2007, the DDM Group has built a successful platform in Eastern Europe, currently managing 2.3 million receivables with a nominal value of over EUR 2 billion.

For sellers (banks and financial institutions), management of portfolios of distressed assets is a sensitive issue as it concerns the relationship with their customers. For these sellers it is therefore critical that the acquirer handles the underlying individual debtors professionally, ethically and with respect. DDM has longstanding relations with sellers of distressed assets, based on trust and the Company's status as a credible acquirer.

The banking sector in Eastern Europe is subject to increasingly stricter capital ratio requirements resulting in distressed assets being more expensive for banks to keep on their balance sheets. As a result, banks are increasingly looking to divest portfolios of distressed and other non-core assets.

DDM Holding AG is a company incorporated and domiciled in Baar, Switzerland and listed on Nasdaq First North in Stockholm, Sweden, since August 2014.
