

A new mobile service application for your hotel

My*i*Guest

Enhancing Hospitality Services

The Hotel App from MYiGuest is **tailormade for hotels** wanting to enhance their hospitality services.

The aim of our hotel app is to **welcome** your guests at the hotel. You will be able to **guide** all guests, provide them with **local tips and recommendations** and highlight current **offers & promotions**.

With our hotel app, you will **inspire your guests** to make the most of their stay. You can easily **promote point of interests**, activities, services, restaurants, bars and much more.

MYiGuest facilitates a new way of actively **increasing your guest service**, at the same time as **costs are reduced** and **new revenue opportunities** are possible.

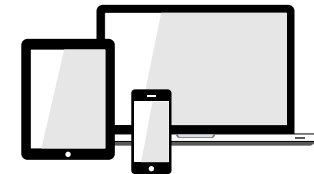

Our Content Management System (CMS) tool enables you to **plan events and promotions** in advance, as well as being able to **add or update content «on the go»**. The app will ensure the guest has the right information at the right time.

MYiGuest Hotel App includes functionalities such as:

NEWS • PUSH • EVENTS/CALENDAR • CONFERENCES • OFFLINE/ONLINE MODE
BOOK A TABLE • SCHEDULE BOOKING • DELIVERY/TAKE-A-WAY • LIVE CHAT
SOCIAL MEDIAS • RESERVATIONS • GEOLOCALISATION

Scan our QR code and see for yourself!

Works perfectly on your computer, tablet or phone

If you need help or support in creating something beyond the basic MYiGuest configuration, we have access to designers, SEO experts, photographers etc in our community. Together we offer support to help you build your very own service application!
